HOLOGRAM GLOBAL IoT COVERAGE LIST

219 Countries & Territories | 862 Carrier Networks | 2G / 3G / 4G LTE / LTE-M / NB-IoT / 5G NR

Source: Official Hologram Network Coverage database (https://www.hologram.io/coverage/). Hologram eUICC IoT SIMs automatically switch to the strongest available partner carrier in each country. If no specific RAT tag is listed by a legacy carrier entry, standard roaming (2G/3G/4G where locally active) applies. Note: Hologram blocks access in Cuba, Belarus, Iran, North Korea, Russia, and Syria for U.S. sanctions compliance.
